N98
MPOS Terminal

Small and lightweight, easy to connect

Flexible Platform

Compatible with multiple platforms - iOS / Android / Windows Supports Bluetooth connectivity.

Security and Reliability

PCI PTS 5.x, EMV L1&L2, EMV Contactless, Paypass and Paywave etc.Accepts EMV smart cards, magnetic stripe and contactless transactions.

Supporting All Payments

It supports various payment methods, such as magnetic card, IC card and contactless transaction transaction. A machine can be used for various forms, making collection simple.

Magnetic Card

IC Card

Contactless Card

Specifications
